

## **Prophetic Vision and Word**

Prophet John Sokolis, 09/14/2011

A couple of weeks ago while I was in prayer for the United States and the World I saw a vision. Two angels stood on each side of the United States — one on the East Coast and one on the West Coast. They were holding it like a blanket or piece of material. They shook it up and down and then it became flat like a map. Then they began to rise up holding the US as they arose.

Then I heard the Lord say, “I am not finished with the United States. I shall raise her out of the dung heap and return her to her previous glory.”

Then God said, “I shall use this place again and many of thee shall see I will raise up whom I will, and set down whom I will. I will return to America, and bring a great awaking, and reformation and restore all the years the Locust have destroyed. This is not only for the US, but for the world. The prayers of the former generations have yet not been fulfilled, but I the Lord God will bring them to pass. This is a new hour and my LOVE shall be exalted in the hour you live in. Now son declare this to the nation, for I am restoring hope and it will not be delayed much longer. For I am coming in power, and might, and all shall see the glory of my presence.”
